FINAL IDEATION

The image shows a school project on a brown background. At the top, a blue sticky note contains handwritten text about the 'Size Chart' and 'Petit' size. Below it is a yellow sticky note with 'SIZE CHARTS'. The main title 'DOES INDIA HAVE OWN SIZE?' is written in large, bold, white letters on a white background. To the right of the title is a black stick figure. To the left is a table for 'Men's Plus Size' with columns for 'Size', 'Bust (cm)', 'Waist (cm)', 'Hips (cm)', 'Length (cm)', and 'Sleeve (cm)'. The table has 10 rows. A small white note to the right of the stick figure says 'Plus SIZE Management by the Faculty of Textiles'. In the bottom right corner, there is a yellow sticky note with 'PETIT' and some smaller text.

The books about size often use 100% size 10. In the US size 10 is the size of "medium" and most men's dress shirts are size 16. In Australia, for instance, including China, Japan and Germany, these men's dress shirts are size 16, men's dress jeans are size 30, and men's dress pants are size 32.

Women's are not much different, according British standards, and they are not much different in the US either, but not in Australia.

Our country is different. Books and following internet dress size charts aren't good guides for us," says Kavita. "In fact, I used about 2000 size 10 women's clothes from India to US to actually measure myself and find out what size is best for pregnant women and their increasing weight."

PETITE CLOTHING

Petite clothing is designed for women who are taller than 5'6" and have narrow shoulders. I should match very slim petite clothes to specialized in selling stage apparel who carry petite clothes are used compared to the fashion industry standard. After from them a strong plus point and successful cut down the cost of purchase for petite.

↳ You shop, you'll encounter clothing with a simple number size, such as 20, as well as sizes with an "oversized" and the letter "W".

Minimizer

How harmful can they be?

→ Flat Breasts

Constant pressure on breasts due to pressure exerted on it

→ Breast shape

Breast can cause damage to the natural shape and causes breast sagging

→ Shoulder Pain & headache

Shape of Bra will sag, heavy weight of breasts will pressure on shoulder

→ Hinders blood flow

The underwires at the bottom and sides that compress the breasts to reduce the air compression causes flattening of breasts

→ The appearance of the Breast

Minimizer can only shape body by restricting blood flow and compression can have negative effects
